

Aneta Burkiewicz

Graphic Designer
& Calligrapher

About me:

I am a Graphic Designer and a calligrapher. I have recently completed MA Graphic Design course at University of Portsmouth with Distinction and I currently work at First Option Software as a Digital Designer. I like all areas of Graphic Design although digital design, animation and branding is my favourite area. I am constantly trying to learn and improve new skills and techniques. I'm dedicated and organised, I am a hard worker who can manage work under pressure and juggling between projects. I have good eye for details and I produce high quality design with the audience and the client in mind.
